

Let us pray for all those who have been infected by Covid-19,
for all who fear infection,
for those who cannot move freely,
for the doctors and nurses who concern themselves so generously with those
who are sick,
for the researchers who are looking for protective and curative medicine,
that in this crisis of our world God will give us His blessing.

(Silent prayer)

Almighty God, you are our refuge and strength!
Many generations before us have known You as powerful in all their needs.
Help all who are affected by this crisis,
and strengthen in us the belief that You will take care of each and every one
of us.
We ask this through Christ, our Lord.
