

CHILEAN PROVINCE

The sisters in the community in San Fabián de Alico, with the help of material from the community in San Carlos, are making masks. Some were distributed free of charge in the village for the day when the seniors must receive their monthly retirement payment. The municipality was very grateful for this beautiful act of generosity by our sisters

The Betania Community in Santiago has also made masks for their own use and for the people who help in the house.

As a Province we contribute with money for food requested in the diocese of Chillán, to help people who are in need.
